It's sad, isn't it, to know that there are many children like Ravi? The good news is that you can do something to help them! First, you need to answer a couple of questions:

1. Do you wear jeans
2. Do you have leather shoes?
3. Do you like lollipops?

If your answers were "YES", there is a high chance that these products or materials for these products were produced in Pakistan.

And now good news!

This is what you can do to help children
like Ravi to lead a better life.
